

Keeping you COVIDSafe

We can't wait to create some science fun with you. But we are doing things a little differently right now, so please read the following carefully so that everyone stays safe and has a great time!

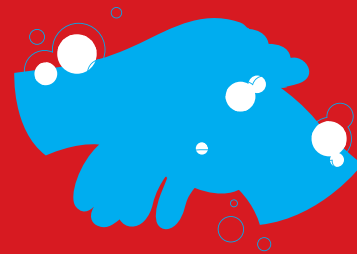

Please wear a mask when required, when you can't socially distance or when you are inside.

We may limit our numbers to ensure everyone can safely distance.

Our staff will clean and sanitise between sessions, minimise shared equipment or use new equipment.

All participants are required to frequently wash or sanitise their hands.

Keeping you COVIDSafe

Masks

Please ensure all guests and staff have a fitted mask covering their nose and mouth if required by current government regulations.

Social Distancing

We require 1.5m between each participant, unless they are from the same family. We may also cap the number of participants depending on current density limit requirements and the location of the event.

Contact Tracing

You will be required to keep a log of the first name and phone number of each person attending, even if they are not participating. Please keep this log for 28 days.

Hand Sanitiser and Washing

We will require all participants to sanitise their hands before starting and at the end of each session. We also encourage everyone to wash their hands with soap and water often.

Enhanced Cleaning

Our staff are trained to keep everything as clean as possible. We will clean or sanitise high touch items, and replace equipment that cannot be cleaned between sessions.

We may change our procedures to comply with government mandates. We appreciate your understanding and cooperation in this challenging time for all.
