

# My Visit to TwistED Science Echuca

I am going to TwistED Science.

I'll wait to get my ticket or show my ticket at the front desk.

There are so many things to see and do at TwistED.

There are some bright lights, but most areas have gentle, natural light.

Sometimes I will need to wait my turn, like if I am going to try the AR climbing wall.

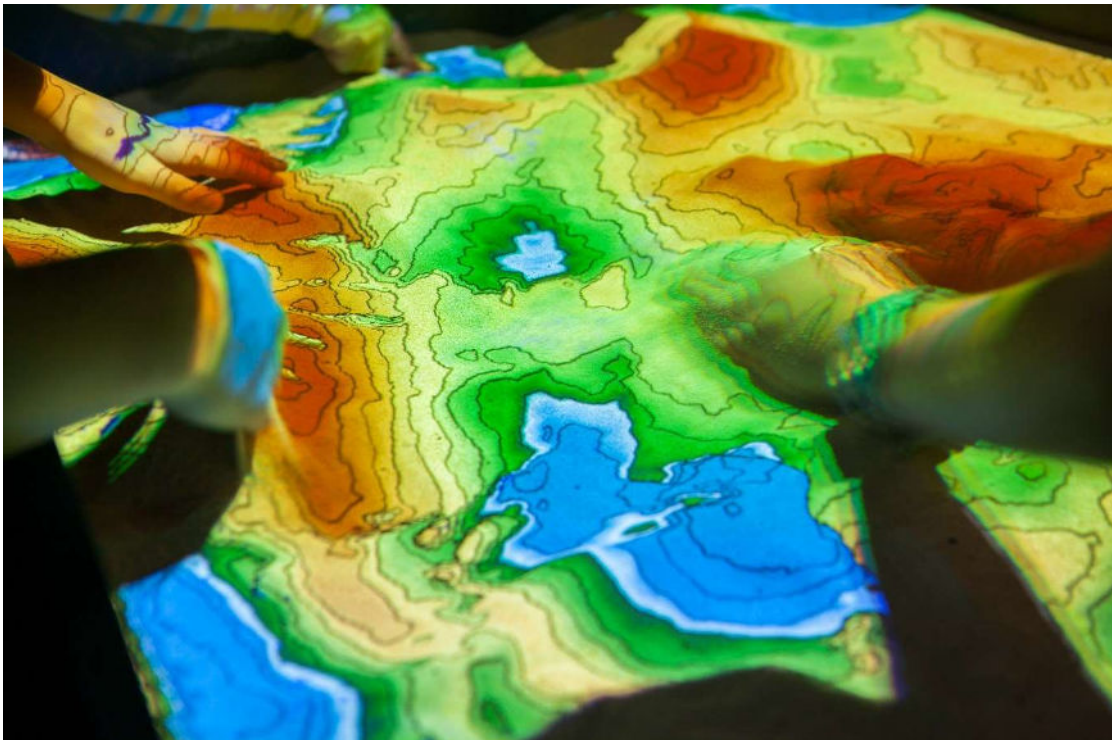

All the exhibits are safe to touch, but I will be gentle with them.

If I visit in the holidays, I may get to meet a lizard or giant insect. I don't have to get close if I don't want to, but they are very friendly.

There are lots of different sensations to experience at Twisted Ed. I can skip any exhibit that I don't feel comfortable with.

If I want more information about the science I can ask my adult to scan the QR codes with their phone.

If I need help, the staff are very friendly and kind. They are wearing coloured hats and black clothes.

Twisted Science is so much fun!
